

Nature Division

Greetings fellow photographers

A new season of competitions is upon us and we hope that you had a good summer, taking lots of pictures — more specifically, nature images. We are the smallest division in the Montreal Camera Club and we would love to see our division grow.

Nature photography does present some challenges not encountered in the Pictorial and Print divisions but these should not deter you from trying your hand. The subjects are seldom cooperative but there is plenty of choice! Mushrooms, wildflowers, animals, birds, along with insects and even geological features. And the list goes on. Just be sure to identify your subject. Writing “bird” is not enough. Try to find the complete name of your subject so that you learn to identify some of the nature that is all around us. We look forward to seeing your images. Please don’t hesitate to contact us if you have any questions about the Nature Division.

To enter images into the Nature Competitions, please follow the directions for entering Pictorial outlined on the next page, but note that Nature submissions should be sent to: mccnature@gmail.com
