StarStaX

StarStaX is a fast multi-platform image stacking and blending software, which is developed primarily for [Star Trail Photography](#). It allows to merge a series of photos into a single image, where the relative motion of the stars creates structures looking like star trails.

StarStaX is available as Freeware for Mac OS X, Windows and Linux. Click [here](#) for more information, documentation and software download.

593206 unique visitors since 05/2011.
